

ALLUMOLU YASHWANTH KUMAR

Software Modelling and Devops Enthusiast

Gmail | +91 8639788789 | LinkedIn | Portfolio | Vijayawada

ABOUT ME

I possess a strong understanding of both DevOps practices and software modelling techniques, enabling me to bridge the gap between development and operations while designing robust software systems. I have strong foundation in Python. My experience with tools like Git, Jenkins, Docker, and Kubernetes has helped me streamline CI/CD pipelines and automate infrastructure deployment. By integrating DevOps workflows with effective software design, I ensure scalable, maintainable, and high-performing solutions aligned with modern development standards.

EDUCATION

2022-2026	Koneru Lakshmaiah University Bachelor of Technology in Computer Science and Engineering, CGPA: 8.92	Guntur, Andhra Pradesh, India
2020-2022	SASI Junior College Board of Intermediate Education, Percentage: 95.50	Velivennu, Andhra Pradesh, India
2019-2020	SASI High School Board of Secondary Education, Percentage: 91.67	Velivennu, Andhra Pradesh, India

PROJECTS

Java-Full Stack	Seamless Placement Interaction System - The Seamless Placement Interaction System is a comprehensive digital platform designed to streamline and enhance the interaction between students, placement coordinators, and recruiters. This system centralizes placement-related data, automates communication workflows, and facilitates real-time updates regarding job openings, application status, and recruitment events. It improves transparency and efficiency in the placement process, ensuring a smoother experience for all stakeholders involved. - Developed with 3 modules: Admin, Student, Recruiter. Technologies:: HTML, CSS, JavaScript, SpringBoot, Hibernate, MySQL.	Sep 2024 - Dec 2024
Python-Full Stack	Online Art Gallery The Online Art Gallery is a web-based application developed using Python to provide a seamless digital experience for art enthusiasts. It allows users to browse and purchase artworks, while also enabling artists to showcase and manage their portfolios. The platform is designed with a secure authentication system, an intuitive user interface, and efficient artwork management. - Divided into 4 modules: Admin, Payment, Seller, and Customer. Technologies: HTML, CSS, React.js, MySQL, Django.	Aug 2023 - Dec 2023

SKILLS

Languages/Frameworks:	Java, HTML, CSS, SpringBoot, ReactJS, Node.js, Full Stack
Database:	MySQL, PostgreSQL
Core Subjects:	Data Structures and Algorithms, Operating Systems, DBMS
Tools:	Visual Studio, React.js, Eclipse

CERTIFICATIONS

- Aviatrrix Certified Engineer
- Salesforce Certified Associate AI
- Essential Automation Professional by Automation Anywhere

GLOBAL RECOGNITION

. Hacker Rank Profile . LeetCode Profile . Codechef Profile
